

SIGNATURE SERIES /CLASSIC FORD BRONCO

VELOCITY™

THE VELOCITY DIFFERENCE

Velocity builds modern vehicles that pay homage to the past. Each Velocity vehicle reimagines a classic style complimented by the luxury and performance we expect from a modern driving experience. The end result– the Velocity Signature Series.

Each step of the build process is completed in-house by our team of expert craftsmen and every Velocity Signature Series vehicle is built with the utmost attention to detail as expected by our team and our clients.

- ▲ Unmatched 14 week production timeline with real-time build updates provided
- ▲ Precision crafted components fabricated in our 135,000 sq. ft. production facility
- ▲ Over 140 trained experts focused on designing, fabricating, and assembling your Signature Series vehicle
- ▲ In-house tuning guarantees each vehicle meets or exceeds performance requirements
- ▲ Innovative research and development team with decades of experience
- ▲ Two downdraft-style professional paint booths provide a lustrous finish and hardened durability
- ▲ Precision crafted parts designed by engineers with a passion for classic vehicles

ICONIC AMERICAN HERITAGE MEETS MODERN DESIGN.

With luxury appointments, precision-crafted details, and cutting-edge technology, Velocity Signature Broncos provide the nostalgic feel of a vintage vehicle without compromising convenience. Experience the feeling of freedom and reminiscence paired with modern sensibilities in this re-imagined classic.

MADE MODERN. KEPT TIMELINESS.

BODY TYPE

UNCUT FENDERS

Uncut Fenders give a nod to the Classic Bronco's traditional factory look. Velocity puts a modern edge on the classic, low rear-wheel fender arches.

Comes standard with 31" tires.

MOLDED FENDERS

Velocity's Molded Fenders offer additional compatibility without taking away from the iconic look of a Classic Bronco. Combined with custom stamped rear quarter panels, the Velocity molded fender provides extra clearance for taller wheels and tires.

Comes standard with 33" tires.

SIGNATURE PAINT OPTIONS

A multi-stage, downdraft paint booth allows Velocity to build vehicles that not only look incredible, but also stand the test of time. Velocity offers a level of fit & finish that is unmatched in the resto-mod industry. Ten signature colors are crafted with inspiration from the past and highlight the iconic design of the Classic Ford Bronco.

SHORELINE

RANGER EDITION

\$19,000 UPGRADE

The Ranger Edition offers a unique aesthetic while staying true to the vintage style of the classic Ford Bronco. The sharp lines and the exclusive woven interior pay homage to the evolution of the Bronco. With the Ranger Edition upgrade, you can be sure that you'll be unlike any other classic Bronco on the road.

- ▲ Exclusive Ranger Edition interior options with faux woven inserts, custom tunnel mats, matching safari top and seatbelts, and RetroSound BT Stereo
- ▲ Offered for both uncut and molded fender body types
- ▲ Ranger stripe included on the side and hood of the Bronco
- ▲ Powder-coated roll cage, bumpers, and steel wheels
- ▲ Includes Wimbledon White painted grille and dash

INTERIOR OPTIONS

The Ranger Edition of the Velocity Signature Series Bronco has four standard interior options.

The interiors are made of marine grade material in our signature colors White and Hickory, with our custom Velocity Ranger Edition seat inserts. The inserts are woven and come in two variations, brown and blue, which can be paired with either seat color.

**Additional colors available but may result in increased build time*

MIDNIGHT EDITION

\$12,500 UPGRADE

Sleek, sexy, and ready to hit the road. The Midnight Edition is tough yet approachable. The modern upgrades of the Midnight Edition include over 60 blacked-out, chrome components on both the interior and exterior. The devil is in the details for this modern take on the classic Bronco.

- ▲ Blacked out interior accessory control knobs, door handle cups, gauge bezel, and more
- ▲ Exterior blacked-out chrome components include: Bronco Sport emblem, Ford grille lettering, door handles, light bezels, bumper, and more...
- ▲ Blacked out wheels
- ▲ Midnight Edition exclusive steering wheel

EXTERIOR UPGRADES

SOFT TOP
\$1,800

We offer a Bestop Soft Top to provide added protection from the elements. The Soft Top is easily removable for the open-air cruising the classic Bronco is known for.

HARD TOP
\$28,500

Our hard tops are meticulously built by hand in our metal shop. A hard top provides the most protection for your vehicle from outside elements. Available in white or color-matched to body. Includes headliner & sound silencing material.

SIX-POINT ROLL CAGE & SAFARI TOP
\$6,600

The 6-point roll cage is a premium upgrade in terms of safety. The 6-point cage provides rear passengers with 3-point safety belts and adds two additional points of contact between the roll cage and the vehicle body.

FULL WET SAND & POLISH
\$5,500

The wet sand and polish is a process that enhances the appearance of the exterior of the Bronco. This process eliminates particles that might have been left behind and it smooths the surface to allow for a deep glossy look.

CHROME BELTLINE TRIM
\$2,500

The Beltline Trim is a stainless molding that goes along the sides and rear on the Bronco. It was an original Bronco option that we offer to add to the classic aesthetic.

BILLET EXTERIOR APPEARANCE PACKAGE

Give your build the premium touch with Classic Ford Bronco parts from Velocity

INCLUDES

DOOR HANDLES

SIDE MIRRORS

PERFORMANCE UPGRADES

BLACK METHOD WHEELS & TIRE UPGRADE \$3,200

The Black Method Wheels are an iconic 12-window all-terrain wheel. Not only do they boast an iconic off-road look, but they also have an increased load rating to ensure that they can handle any condition with strength and rigidity.

VR FRAME \$4,800

Our VR frame was custom-engineered in-house by our team. We addressed all of the issues that were present with the original Bronco frames and built them out of thicker, higher grade steel. The VR frame provides an extraordinary driving experience and ride quality, as well as added strength and performance.

CUSTOM STEEL VR BUMPERS \$5,900

The VR bumpers are custom powder-coated metal fabricated bumpers that are as tough as they look. These bumpers are ideal for those who want to capture the off-road DNA of a classic Ford Bronco.

INTERIOR UPGRADES

APPLE CARPLAY & ANDROID AUTO \$2,200

This Pioneer head unit has a pop-up digital display that allows for wireless connectivity to your Apple or Android device. Enjoy the best of what modern technology has to offer in your classic Ford Bronco.

BACKUP CAMERA \$2,500

Our backup camera includes a rearview mirror with a digital display that is activated when the vehicle is put into Reverse. When equipped with the popup digital display, the backup camera feed will appear on that screen.

VENTILATED SEATS \$2,900

Cooled seats are a great feature to have on a hot summer day. Add even more modern luxury to your Bronco with this option.

**Requires perforated seats*

HEATED SEATS \$2,200

This feature adds the comfort of heated seats to the front seats of your Bronco. Whether you want to warm up on a cool day or relax your back after a long day on the links, the heated seat upgrade is a must-have.

SIRIUS XM \$900

For those who enjoy satellite radio, Sirius XM can be added to the stereo in your classic Ford Bronco with this upgrade.

**Available on base head unit, RetroSound, and Pioneer flip-up head unit*

LEATHER UPGRADE \$4,500

The leather is an upgrade from the marine quality vinyl. It provides an upgraded fit and finish with a luxurious feel. Take your Bronco to the next level by upgrading to premium leather.

SEAT RELOCATION KIT \$1,200

The seat relocation kit provides 2 inches of extra travel for the driver's seat. This is helpful for those above average height, as this upgrade provides extra leg room for the driver.

BILLET INTERIOR APPEARANCE PACKAGE

\$3,500

Give your build the premium touch with Classic Ford Bronco parts from Velocity

INCLUDES

INNER DOOR CUP/CONTROL

WINDOW CRANKS

DOORLOCK PULLS

SHIFT KNOBS

HEADLIGHT KNOB

CLIMATE CONTROL KNOBS

UNMATCHED PRODUCTION TIMELINE

At Velocity we provide a known 14-week production timeline along with a set price for your Velocity Signature Series classic Ford Bronco. With all work completed in house, we can provide a vastly different experience compared to an average restoration with long lead times and hidden costs.

The production process is broken into one week segments that correspond to a specific portion of the restoration. Dedicated technicians in each step ensure weekly completion and greater quality control. Combined with a robust inventory and vertical integration of all parts of the process, Velocity can control completion timelines like no other.

DRAW SCHEDULE

Your Customer Success Team member will work with you to establish a draw schedule. The draw schedule can consist of up to four payments.

▲ **Contract & Deposit**
Guarantees production slot

▲ **Stage 1**
Due prior to production start
**Paint Color must be confirmed*

▲ **Stage 2**
Due when vehicle is moving into
Station 5 (Electrical & Chassis)

▲ **Stage 3**
Due when vehicle is moving into
station 8 (Test & Tune)

PRODUCTION LINE

The customer experience provided by Velocity is truly second to none. We want you to be as involved in the process as you would like to be.

During the 14-week build timeline, a member of our Customer Success Team will work alongside you to ensure that you have the best experience possible. This includes regular updates sent directly to you from the production line throughout each station of the build process.

DEALER PAPERWORK AND SHIPPING

Once the final draw payment is made we will begin all of the final paperwork. Your dedicated Customer Success Team member will guide you through the process every step of the way.

Once the Bronco is finished and the final paperwork is completed, your Customer Success Team member will work with you to coordinate shipping and delivery. We work with you and for you to make sure that your new vehicle arrives safe and in a timely manner.

ST1

BODY MOCKUP

Each vehicle starts as a bare original Bronco frame that is powder coated to ensure long-lasting durability. The Bronco body is then set on top of the frame to “mockup” the vehicle.

ST2

EXHAUST & ROLL CAGE

We fabricate each roll cage to fit seamlessly to your vehicle. A custom exhaust system is also crafted to ensure your vehicle sounds as good as it looks.

ST3

BODY PREP

Your vehicle body is then stripped to bare metal and our body shop technicians correct and refine all panel gaps. Final sanding and bodywork preparation is done before painting.

ST4

PAINT

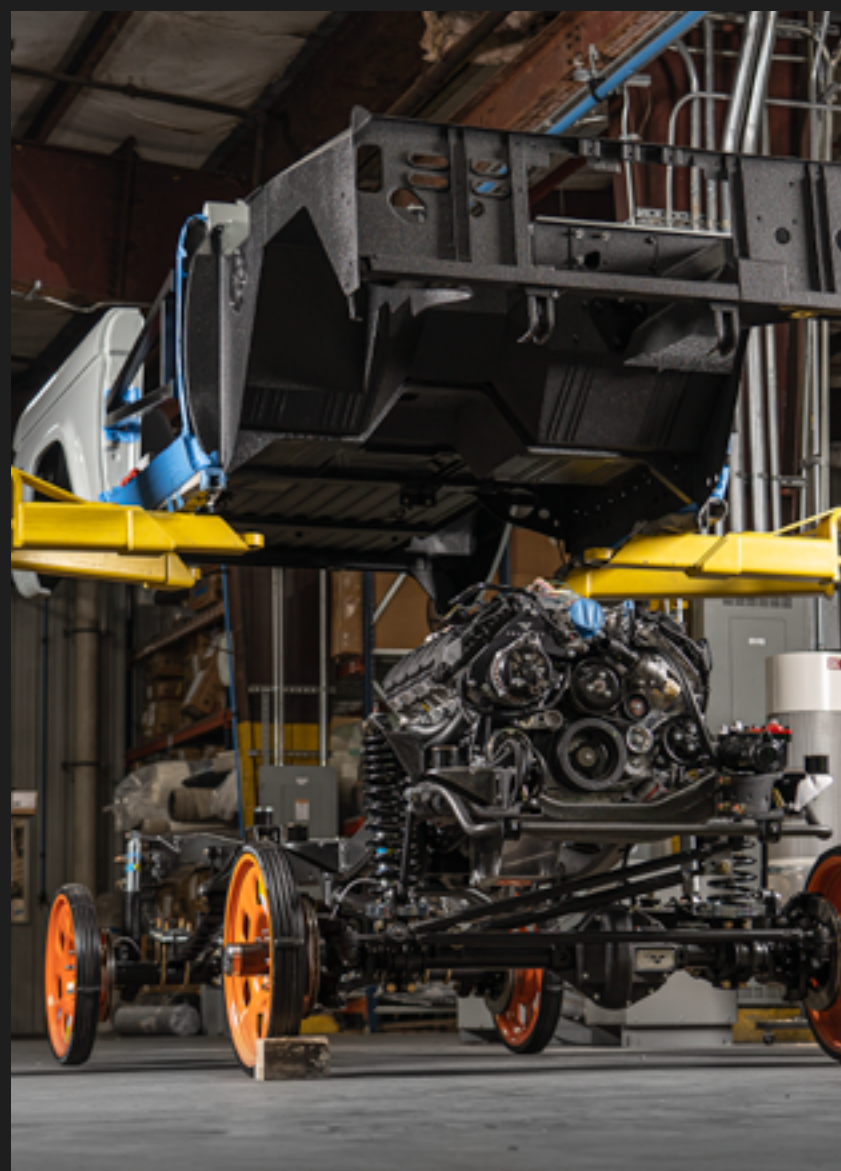

Custom Glasurit paint is sprayed on the body tub and panels of your vehicle. Velocity utilizes two down-draft paint booths in our facility to ensure the highest standard of paint.

ST5A

ELECTRICAL

Electrical systems are prepared and installed throughout your vehicle's body. All new wiring is integrated with a modern ECU (Electronic Control Unit) & TCU (Transmission Control Unit).

ST5B

CHASIS

All of the body components of your Bronco come together; interior, body panels, roll cage, and bumpers are assembled and aligned.

ST6

MECHANICAL

Our technicians connect all electrical and mechanical parts of the vehicle. Your vehicle's beating heart, the 5.0L Coyote V8 engine, is fired up for the first time.

ST7

ASSEMBLY

All of the body components of your Bronco come together; interior, body panels, roll cage, and bumpers are assembled and aligned.

ST8

TEST & TUNE

Our process consists of 500+ miles driven and a custom tune on our in-house dyno to ensure an unparalleled driving experience.

ST9

QC

Our classic Bronco experts diligently and thoroughly inspect each Bronco ensuring our top of the industry standards are met.
